CARATTERISTICHE DEL MATERIALE

Il top in laminato è costituito da un pannello di particelle di legno (classe E1) idrorepellente rivestito da laminato plastico ad alta pressione (HPL).

CONSIGLI DI MANUTENZIONE

La pulizia va effettuata con una spugna bagnata con un normale detergente liquido, da evitare sono i prodotti molto abrasivi, le pagliette in acciaio che potrebbero rigare la superficie e forti prodotti chimici e sanitari (candeggina, acidi ecc.) che potrebbero provocare decolorazioni; comunque non lasciare mai alcun liquido depositato sulla superficie per lungo tempo. È bene inoltre non appoggiare pentole calde o ferri da stiro o qualunque altra fonte di calore, onde evitare delle bruciature e screpolature del laminato.

MATERIAL FEATURES

Laminate worktop are made of wood particle board (class E1), water proof laminated with plastic under high pressure (HPL).

MAINTENANCE RECOMMENDATIONS

Clean the surface with a sponge and normal liquid detergent; do not use abrasive cleaning products, steel wool scoring pads or strong chemical and hygiene products (bleach, acid, and so on) as they can cause discoloration; never leave liquids on the surface for a long time. Do not put hot pots, irons or any other heat source on the surface, to avoid burns and cracking.
